

# Document Feed

**Boost your efficiency and get immediate access to high quality fund documents**

Our Document Feed service allows fund distributors, insurance companies and banks to access quality controlled fund documents and integrate them into their existing publications, applications and online platforms.

This service dramatically cuts the time and resources it takes to deliver accurate and compliant fund documents to your customers. We host over 38 million fund documents and cover over 118,000 share classes, including unit prices and ratings, providing full coverage of the main fund distribution markets in Europe, Hong Kong and Singapore. We also provide fund documents in several languages including English, German, French, Italian, Spanish and Chinese.

## How it works

## Why FE fundinfo

### Our promise

FE fundinfo connects fund managers and fund distributors facilitating efficient investment decisions based on trusted, insightful information.

Contact us at [enquiries@fefundinfo.com](mailto:enquiries@fefundinfo.com) for more information on how we can help you mitigate risk and achieve operational efficiencies including:

- Data Feeds
- Client Reporting
- Regulatory Data Templates

## Benefits

### Unmatched coverage

Our global database of fund documents are sourced from over 1,100 fund managers and covers hundreds of thousands of share classes. It contains millions of up to date legal and marketing fund documents in local languages checked by the corresponding regulatory bodies in Europe and Asia. The service provides full coverage of the main fund distribution markets of Europe, Hong Kong and Singapore.

### Save time and money

Sourcing fund documents from us means your staff spend significantly less time and resource obtaining, checking and distributing fund documents.

### Access comprehensive and up to date information

We achieve the highest level of quality by accepting documents exclusively and directly from fund managers or their authorised partners. Our many years of experience in the automated processing of large volumes of documents makes us a source you can rely on.

## Key features

### Access a range of fund documents

We provide a complete and up to date set of fund documents including prospectuses, financial reports, KIIDs, PRIIP KIIDs, PHS, KFS, etc. (including key fact statements for Hong Kong and product highlight sheets for Singapore).

### Multiple access options

Our global database of fund documents is accessible via our Live Service or by downloading database extracts in CSV or XML formats (snapshot feed). Direct links can also be created on your platforms to specific documents or to web pages in HTML format (HTML query).

### Flexible implementation options

We offer a range of different implementation methods to meet business requirements for maximum convenience and minimum technical set up costs.

### Meet marketing, legal and IT requirements

The service includes coverage reports, sophisticated monitoring tools and solid contingency plans to meet the requirements of your IT and legal departments. To support your marketing efforts, user statistics provide an overview of which documents are retrieved for which funds in which markets.
